

# Digi teams up with PetDag for service centres in petrol stations

By THE STAR | 23 May 2018

KUALA LUMPUR: Looks like Petronas stations are attracting more than just restaurants and banks. The latest partnership is with telco Digi.com Bhd.

It has just team up with Petronas Dagangan to offer selected services such as subscribing to a Digi line or credit reload at Kedai Mesra in Petronas as well as refuelling, refreshing and reloading at Petronas stations.

The Digi services are available at over 200 Petronas stations in the Klang Valley.

In addition, Digi pop-up booths will also be set up at some Petronas stations to make it more convenient for motorists who want to perform these services prior to entering Petronas' Kedai Mesra. These services can be completed as quickly as 20 seconds at the booths, enabled by Digi's Mobile Sales app.

The benefits from the Digi-Petronas partnership is also offered to Digi's commercial fleet tracking service iFleet and Petronas Dagangan's corporate fleet card programme, Petronas SmartPay.

Petronas SmartPay fleet card users who sign-up for iFleet services receive 10% off their subscriptions per month, per vehicle while iFleet customers receive an attractive discount per litre of Petronas' quality fuel when they sign up for SmartPay.

In recent months, Petronas Dagangan had announced tie-ups with Starbucks and KFC.
